

TCC Dual Enrollment

Parent Information Guide

Overview

The Dual Enrollment Program at Tallahassee Community College allows high school students the opportunity to become familiar with the college experience before even graduating high school. Students will learn how to register, communicate using a student email, navigate Canvas and Eaglenet, and utilize campus resources.

Per Section 1007.27(1) of the Florida Statutes, the dual enrollment program is the enrollment of eligible secondary student or home education student in a **postsecondary course creditable toward** 1) **high school completion** and 2) a **career certificate or and associate or baccalaureate degree**. A student who is enrolled in postsecondary instruction that is not creditable toward a high school diploma may not be classified as a dual enrollment student.
