Executive Vice President and Provost

SUBJECT: Laboratory/Course and Distance Learning Fees for 2020-2021

Item Description

This item references the proposed laboratory/course and distance learning fees for 2020-2021.

Overview and Background

Florida Statues 1009.22(9) and 1009.23(12) states that each *Florida College System* institution board of trustees is authorized to establish user fees such as laboratory fees, duplicating/photocopying fees, testing fees, etc. State Board Rule 6A-14.054 also states that each board of trustees may establish user fees in addition to tuition fees for services and incur costs. Such user fees shall not exceed the cost of the goods or services provided and shall only be charged to student receiving those goods or services. User fees are different from the state authorized fees that are charged per student per credit hour such as a financial aid fee, capital improvement fee, student activity fee, and technology fee.

At TCC, laboratory/course fees are assessed to students who are enrolled in classes that because of their nature, require special funding not provided by regular tuition. Examples of those items include but are not limited to the following: specialized instructional software and equipment, instructional videos, industry certification exams, liability insurance.

TCC has a total of 184 laboratory/course fees of which 9% are being decreased or removed, 78% are unchanged, and 13% are being increased.

The collection and expenditure of fees are audited on a regular basis by the auditor general's office. Additionally, TCC annual reviews all fees to ensure that the cost does not exceed the amount necessary to offset the cost of the items, which are consumed in the course of the student's instructional activities.

Funding/ Financial Implications

The fees to be charged to students are visible to students in the course schedule. The College's budget for the 2020-2021 year will incorporate collection of fees approved by the Board

Past Actions by the Board

The Board approves these fees annually.

Recommended Action

That the Board approve the laboratory/course and distance learning fees as presented and direct staff to conduct an assessment of fees to identify opportunities to reduce student cost.
