

SLED Summit: Advancing Safety Solutions for State & Local, Police, and Education

Join us for the SLED (State & Local Government, Police, and Education) Summit, where we're showcasing cutting-edge solutions tailored for educational institutions, public-safety, and beyond. Explore how AI-driven analytics enhance security, operational efficiency, and community well-being. From detecting threats to enabling swift responses, witness the latest advancements in security technology designed specifically for state & local government, police, and education sectors.

Discover these benefits:

- **Sense:** Detect guns or gunshots, suspicious activity, or unsafe conditions with AI built-in to Bosch cameras
- **Alert:** Quickly notify the right people to a possible or verified risk
- **Fortify:** Initiate fortification actions automatically when an event occurs
- **Engage:** Trigger automated messages with loudspeakers integrated with the video system
- **Respond:** Initiate messages to play over security or facility staff's two-way radios in critical situations

Don't miss this opportunity to elevate your safety practices and witness the latest advancements in security technology.

<p>Wednesday April 17, 2024</p>	<p>Florida Public Safety Institute Conference Center 75 College Dr. Havana FL</p>
