## MEMORANDUM

**TO:** District Board of Trustees  
**FROM:** Jim Murdaugh, President   
**SUBJECT:** Construction Status Report

---

### Item Description

This item describes the status of various construction, renovation, remodeling and site improvement projects at both the TCC Main Campus and the TCC Florida Public Safety Institute for information for the Board of Trustees.

### Overview and Background

Main Campus:

Architectural planning continues for renovations to the Dental Hygiene lab areas. Construction in this area will start in the fourth quarter of 2013. The first phase of the Science Lab project is complete, and the new Physics Labs and Anatomy and Physiology Labs will welcome students in the Fall term. Construction documents for the new Organic Chemistry lab are complete and we expect to start work this July.

Ghazvini Center for Healthcare Education:

Remaining minor equipment items have been received and the project is complete.

Florida Public Safety Institute:

In 2010, TCC completed a twenty year Natural Resource Management Plan for the FPSI property. The purpose of the plan is to engage in active natural resource management while being a good steward of the land. The plan has an annual schedule of management activities. The current activity is to log about two hundred acres of poor quality pine and hardwood timber in the southeast quadrant in preparation for reforestation with native longleaf pine next year.

### Past Actions by the Board

None

### Funding/Financial Implications

This is a monthly update on the status of various construction and renovation projects undertaken to support the educational mission of the College. No further action is necessary on the part of the Board at this time.
