**ACADEMIC FACULTY CREDENTIALS MANUAL**

The purpose of this manual is to provide technical and procedural clarification for individuals responsible for faculty selection and credentialing. Procedures, forms, and general information are consistent with the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Comprehensive Standard 3.7: Faculty, under section 3.7.1.

# Introduction

## *Overview*

This handbook is intended to guide the reader through the process of credentialing faculty members at Tallahassee Community College (TCC). Both full-time and part-time faculty members are required to meet the standards set by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). This handbook describes the credentials needed to teach courses in each discipline and program offered at TCC.

This handbook is divided into three (3) parts. The first part, procedural guidelines, includes the process for establishing and determining faculty credentials as identified and required by SACSCOC in the Principles of Accreditation: Foundations for Quality Enhancement. The actual process of evaluating transcripts is then described, and the transcript evaluation form is presented. Because faculty qualifications occasionally do not match the credentials expected for each discipline and program, the section on developing faculty portfolios is included. Within that subsection, the membership list of the National Association of Credential Evaluation Services is provided, as well as helpful websites for identifying the accreditation status of colleges and universities.

The second part of this guide is a descriptive listing of the actual credentialing requirements for the disciplines and courses offered at the College. Individual credential tables are provided by discipline, program, and in some cases, course. Each table indicates the course prefixes taught at TCC (left column), the minimum qualifications fields (central column), and whether the course credits are transferrable (right column). For cases in which qualifications are not clear, the appropriate Dean, in consultation with the Provost and Vice President will make the final ruling on qualifications or the need for a portfolio.

The final section of the manual provides useful information and resources regarding faculty credentialing.

## *SACSCOC Principles of Accreditation*

### The text below is quoted from the SACSCOC *Principles of Accreditation: Foundations for Quality Enhancement*

(<http://www.SACSCOCcoc.org/pdf/PrinciplesOfAccreditation.>), Section 3: Comprehensive Standards, 3.7: Faculty and the *Faculty Credentials Guidelines* publication (<http://www.SACSCOCcoc.org/pdf/081705/faculty%20credentials.pdf>).

The institution employs competent faculty members qualified to accomplish the mission and goals of the institution. When determining acceptable qualifications of its faculty, an institution gives primary consideration to the highest earned degree in the discipline. The institution also considers competence, effectiveness, and capacity, including, as appropriate, undergraduate and graduate degrees, related work experiences in the field, professional licensure and certifications, honors and awards, continuous documented excellence in teaching, or other demonstrated competencies and achievements that contribute to effective teaching and student learning outcomes. For all cases, the institution is responsible for justifying and documenting the qualifications of its faculty. (*See Commission guidelines "Faculty Credentials."*) (**Faculty competence**)

#### *Credential Guidelines:*

- a. *Faculty teaching general education courses at the undergraduate level: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).*
- b. *Faculty teaching associate degree courses designed for transfer to a Bachelor's degree: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).*
- c. *Faculty teaching associate degree courses not designed for transfer to the Bachelor's degree: bachelor's degree in the teaching discipline, or associate's degree and demonstrated competencies in the teaching discipline.*

## Credit Faculty Credentials Review Procedural Guidelines

### *Establishing Faculty Credential Requirements for Teaching Discipline*

When an academic division or department committee proposes a new course to the Curriculum & Innovation Committee, the “Minimum Instructor Qualifications” must be identified on the Proposal for New Course form. Once the Curriculum & Innovation Committee has approved a proposal and it is adopted by the Board of Trustees, it is the responsibility of the division deans/directors to maintain and update the credentials parameters table for each course taught in their divisions.

### *Completion of Faculty Credentials Worksheet*

The Faculty Credentials Worksheet must be completed and kept current for all teaching faculty. The faculty qualifications form has been developed for assessment of faculty credentials. This form establishes review at the department level including response to specific credentialing questions, transcript analysis and a writing sample. The form is filed in the faculty member’s Human Resources personnel file. Expansion of a faculty member's teaching assignment to a new academic discipline area requires updating of the Faculty Credentials Worksheet.

### *Faculty Credential Review by Screening Committees*

Applicants for teaching positions are reviewed by faculty peers:

- Full-time faculty applicants are reviewed by screening committees that include faculty from the teaching discipline.
- Part-time faculty applicants are reviewed by discipline program chairs and the division dean/director.

- Adjustments for faculty positions include the minimum credential requirements.

### *Division Dean/Director Review of Faculty Credentials*

The Division Dean/Director will verify the credentials and make a recommendation by completing the SACSCOC' Roster of Instructional Staff – Guidelines for Reporting the Qualifications and Competencies of Full-Time and Part-Time Faculty (a copy of this packet will be retained in the division and the original will be returned to Human Resources as permanent record. Should the packet warrant possible approval to be Credentialed as an Exception (CE; explained in the following section), the Division Dean/Director will send the packet for review to the Provost and Vice President for Academic Affairs. [The Higher Education Directory](#) will be used to verify the accreditation of each institution attended by Faculty.

### *Credentialed as an Exception Review by TCC President*

Under special circumstances, faculty members may have experience that clearly contributes to student learning outcomes and that can be considered in lieu of formal academic preparation. In these cases, the faculty member may present a portfolio that documents the experience. The portfolio of the faculty member must include the following documentation:

- The Faculty Transcript Evaluation
- Supporting materials to include the following in the order specified:
  - a. If the experience concerns coursework, letters certifying that the coursework is equivalent to the required coursework should appear first. These letters should come from an academic officer from the department that is accepting equivalency. For example, if an instructor wishes to request that engineering coursework be accepted as equivalent to math coursework, the academic officer of the math department at the awarding institution should attest to the equivalency of the coursework.
  - b. If the experience concerns professional experience, documentation should appear next (or first, if no coursework exceptions are involved). Documentation of professional experience includes items such as certificates, awards, appearance on programs, and other evidence that the faculty candidate has been recognized as a professional in his/her field.
  - c. Professional letters of support
  - d. Student letters of support

- Other relevant documentation will be submitted to the appropriate academic dean/director.
- The division dean/director will review the portfolio and make recommendations to the Provost and Vice President, who will approve or disapprove the portfolio.
  - a. The Provost and Vice President will review packets earmarked as Credentialed as an Exception (CE) by the division dean/director and make a recommendation to the TCC President. Final approval of these packets will require the signature of the President.
- Upon recommendations for disapproval, the portfolio will be returned to the candidate with recommendations for additional documentation as identified, if appropriate.
- Upon recommendations for approval, the portfolio will be submitted to Human Resources to be maintained as part of the faculty file.
  - a. Final signed copies of credentials materials, including credentials, forms and writing samples used for exception, will be sent to the appropriate academic department, and the original returned to the Provost and Vice President office.

#### *Final Processing of Applicants Credentialed as an Exception (CE)*

The Office of the Provost and Vice President for Academic Affairs will return packets to Human Resources as permanent record and notify the division dean/director of the decision regarding the applicant.

#### *International Credential Evaluations*

Faculty with international degrees must have their coursework evaluated in terms of U.S. "equivalency." TCC requires that all international credential evaluations be conducted by one of the companies affiliated with the National Association of Credential Evaluation Services, Inc. (NACES®) or the Association of International Credential Evaluators, Inc. (AICE). It is the responsibility of the applicant to get their transcript evaluated. More information about NACES® and AICE affiliates can be obtained at the NACES® website: <http://www.naces.org/> and <http://aice-eval.org/>. NACES® and AICE affiliates provide professional assistance in evaluating the educational background of persons educated abroad. Advisory statements on educational equivalency are prepared on request for colleges and universities, professional associations, and public school systems. Prospective and current faculty are responsible for the cost of international transcript evaluation. See The Appendix for a listing of foreign credentialing evaluation services and other helpful Web sites.

# A-Z Credentialing Parameters by Discipline

Course Prefix	Minimum Requirements	CTC (Transfer)	CNC (Non-Transfer)
<b>ACCOUNTING</b>			
ACG TAX	Master's degree in accounting, tax, business, business administration or finance + CPA <i>-or-</i> 18 graduate semester hours in accounting, tax, business, business administration or finance + Master's degree + CPA	✓	
<b>ADVANCED MANUFACTURING</b>			
EET ETI ETM ETS	Master's degree in one of the following engineering fields: technology, electrical, industrial, computer, mechanical, civil, chemical, architecture or manufacturing <i>-or-</i> 18 graduate hours in any combination of the following engineering fields: technology, electrical, industrial, computer, mechanical, civil, chemical, architecture or manufacturing + Master's degree	✓	

Course Prefix	Minimum Requirements	CTC (Transfer)	CNC (Non-Transfer)
<b>ANTHROPOLOGY</b>			
ANT	Master's degree in anthropology -or- 18 graduate semester hours in anthropology + Master's degree	✓	
<b>ART</b>			
ARH	Master's degree in art history -or- 18 graduate semester hours in art history + Master's degree	✓	
ART	Master's degree in art or fine art/studio art -or- 18 graduate semester hours in art or fine art / studio art + Master's degree	✓	
<b>ASTRONOMY</b>			
AST	Master's degree in astronomy or physics -or- 18 graduate semester hours in astronomy, and/or physics + Master's degree	✓	
<b>BIOLOGICAL SCIENCES</b>			
BSC 1005 BSC 1005L	Master degree in one of the following qualifying fields -or- 18 graduate semester hours in biology or related or applied biological science subfield + Master's degree  Qualifying Fields. Agriculture, Biochemistry, Bioengineering, Biomedical research, Biophysics, Biotechnology, Botany, Cell biology, Conservation biology, Ecology, Environmental Biology, Genetics, Marine biology, Microbiology, Molecular biology, Mycology, Neurobiology, Pharmacy, Population biology, Pathobiology or pathology, Physiology, Phytopathology, or Zoology	✓	

Course Prefix	Minimum Requirements	CTC (Transfer)	CNC (Non-Transfer)
<b>BIOLOGICAL SCIENCES contd.</b>			
BOT	Master degree in one of the following qualifying fields  <i>-or-</i>  18 graduate semester hours in biology or related or applied biological science subfield + Master's degree  Qualifying Fields. Agriculture, Biochemistry, Bioengineering, Biomedical research, Biophysics, Biotechnology, Botany, Cell biology, Conservation biology, Ecology, Environmental Biology, Forestry, Genetics, Marine biology, Microbiology, Molecular biology, Mycology, Neurobiology, Population biology, Pathobiology or pathology, Physiology, Phytopathology, or Zoology	✓	
PLS	Master degree in one of the following qualifying fields  <i>-or-</i>  18 graduate semester hours in biology or related or applied biological science subfield + Master's degree  Qualifying Fields. Agriculture, Biochemistry, Bioengineering, Biomedical research, Biotechnology, Botany, Cell biology, Conservation biology, Ecology, Environmental Biology, Environmental Science, Genetics, Microbiology, Molecular biology, Mycology, Neurobiology, Population biology, Pathobiology or pathology, Physiology, Phytopathology, or Zoology	✓	
BSC 2010 BSC 2011	Master's degree in biology or a related biological science subfield  <i>-or-</i>  18 graduate semester hours in biology or related biological science subfield + Master's degree  Qualifying Fields. Agriculture, Biochemistry, Bioengineering, Biomedical research, Biophysics, Biotechnology, Botany, Cell biology, Conservation biology, Ecology, Environmental Biology, Genetics, Marine biology, Microbiology, Molecular biology, Mycology, Neurobiology, Population biology, Physiology, or Zoology	✓

TPP 2250	18 graduate semester hours in theater or music + Master's degree  -or-  Master's degree in theater, or music or music theater	✓	

## Faculty Credentials Report

*TCC SAMPLE*

### Exception. Review Based on Experience and Professional Contributions

The individual associated with this review has been recommended as a Credential Status CE (Credentialed as an Exception). This applicant does not meet degree and course work criteria, but is approved based on professional experience and contributions to the teaching discipline.

Faculty Applicant: Jane D. Dancer Teaching Discipline: Dance

#### EXPLANATION

Ms. Jane Dancer has, over a period of twenty years, accumulated extensive professional experience as a dancer and dance instructor in the community. She has served a choreographer and instructor for various dance companies, community theaters and cultural programs. Documented evidence on professional experience and contributions to the teaching discipline are provided in this portfolio including: published reviews on various dance performances from the Miami Herald and the Atlanta Journal, a letter of reference from the Dancer's Guild on her work as a choreographer and instructor of dance, published materials on professional contributions to an Interpretive Dance Outreach program sponsored by the Tallahassee Department of Parks and Recreation and other letters of reference on community dance performances.

Signed Appropriate Dean
