

Frequently Asked Questions for 1098-T Form

1) What is the Purpose of a 1098-T form?

The 1098-T form is used by eligible educational institutions to report information about their students to the IRS, as required by the Taxpayer Relief Act of 1997. Eligible educational institutions are required to submit the student's name, address, and taxpayer's identification number (TIN), enrollment, and academic status. Educational institutions, beginning with 2003, were also required to report amounts to the IRS pertaining to qualified tuition and related expenses, as well as scholarships and/or grants, taxable or not.

1098-T forms are **provided to each applicable student**. These forms are **informational only** and serve to alert students that they may be eligible for federal income tax education credits. A 1098-T form **should not be considered as a tax opinion or advice**. While it is a good starting point, the 1098-T, as designed and regulated by the IRS, does not contain all of the information needed to claim a tax credit. There is no IRS requirement that you must claim the tuition and fees deduction or an education credit. Claiming education tax benefits is a voluntary decision for those who may qualify.

2) Why did I not receive a 1098-T form this year?

- a) **First, check to see if your form was electronically produced and is available in Workday.**

You can view the Workday 1098-T data by logging in to your Workday student account and typing 'View My 1098-T' in the search box. If a 1098T has been produced, click the 'OK' button and your 2022 data will be displayed. You can click the 'Print 1098-T' button to create a pdf version of your 1098-T form. Or you can type 'Print My 1098-T' in the search box to create a pdf version of the form. You will receive a Workday notification once the document is available.

- b) **If a 1098-T form is not available for the 2022 year, you did not meet the requirements for receiving a 1098-T for the last calendar year, due to:**

Qualified tuition and related expenses - 1098-T forms are only issued for students

whose qualified tuition and related expenses are greater than the students' scholarships, grants, and waivers. You may see a 1098T form with \$0.00 in the boxes as well. (Please refer to IRS instructions for Forms 1098-E and 1098-T, page 2, under exceptions at <https://www.irs.gov/forms-pubs/about-form-1098-t>. Please see the following examples:

- (1) Student A has qualified tuition and fees of \$7,550 (Box 1) and scholarships, waivers, and grants of \$11,250 (Box 5) for the calendar year 2021. **Student A will not receive a 1098-T form from TCC.**
- (2) Student B has qualified tuition and fees of \$8,275 (Box 1) and scholarships, waivers, and grants of \$2,250 (Box 5) for the calendar year 2021. **Student B will receive a 1098-T form from TCC.**

3) Why did I receive a 1098-T and what am I supposed to do with it?

In January of each year, an IRS Form 1098-T is made available electronically or mailed to students who selected the option for paper distribution, to all students who had qualified tuition and other related educational expenses billed to them during the previous calendar year. **This form is informational only and should not be considered as a tax opinion or advice.** It serves to alert students that they may be eligible for federal income tax education credits. Receipt of Form 1098-T does not indicate eligibility for the tax credit. To determine the amount of qualified tuition and fees paid, and the amount of scholarships and grants received, a **taxpayer should use their own financial records.**

***NOTE: It is up to each taxpayer to determine eligibility for the credits and how to calculate them.**

4) What information was reported in Boxes 1 and 5 of my Form 1098-T?

- Box 1- This box will contain the sum of all qualified tuition and related expenses paid for a student during a calendar year. Tuition waivers and exemptions will reduce the sum of the student's qualified tuition and related expenses for the year.

in this amount. Payments received from third-party sponsors that are applied to student's account for educational expenses are included in this box.

5) What educational expenses are considered as qualified tuition and related expenses?
