Course Description:

Law enforcement de-escalation instructor training course that provides the necessary communication skills to be successful with de-escalation training. This course focuses on a real-world approach to communicating tactfully, which will allow you as an instructor to provide a baseline for your officers that will reduce liability, promote a professional image, build a rapport, and even save lives. This training is a hands-on scenario-based course that gets you as the instructor involved in classroom participation that will provide results. This instructor course delivers to you the necessary skills of persuasion that you can demonstrate to your officers. This is a necessity for any law enforcement agency looking to expand on the ever-changing expectations of communication, and the strategies received will provide you with an effective blueprint to solve potentially unreceptive situations before they erupt. These are techniques every officer should have as a resource in the field. The instructor teaching this course offers real-world experience based on what we in law enforcement deal with on a daily basis. He will demonstrate ways to avoid being in a conflict by using persuasion instead of physical force. You will be surprised by the knowledge you will gain after attending this course and be able to translate that knowledge to your officers, which will only help them have a long and prosperous career.
